THE BULLETIN.

Publication Office, Bulletin Building, Washington Avenue.

THE NARROW GAUGE.

HOW IT WORKS IN CANADA. An American traveler, who passed over the Toronto, Gray and Bruce Railway, in Canada, writes as fellows con-cerning it and other roads of the same

The amount of goods which it has brought is truly surprising. The number of passengers traveling both ways is also very large. The fact is, the railway is a great success. Having gone to Toronto and back on the line the present week, we were agreeably surprised at the comfort of the journey. We have heard a good deal of the "narrow-gausge" and the "wheelbarrow railway," but let anybody get into the cars without being told anything about narrow-guages, and we will venture to say that he would not observe the difference between it and any other railway. The cars are scated in the same way as the wide guage, each seat accom-modating two comfortable. The track, too, is very smooth.

In addition to the above, the following

railways are progress with a guage of three feet six inches: Queensland, Aust-ralia, government railway, 222 miles; railway from Congeveran to Arconum, India, 19 miles; Toronto and Nipissing Railway, Canada, 108 miles; government railway of Norway, 101 miles. Locomotives used: Freight engine and tender, 29 tons weight; eight wheels, six of which are coupled, passenger engines and tenders, 16 tens weight in running order, six wheels, four of which are coupled, and tark engines, about 13 tons weight, six wheels, four of which are coupled. Rolling stock: Outwhich are coupled. Rolling stock: Outside width of cars vary from six feet six inches to eight feet. The speed varies from 12 to 25 miles per hour, including stoppages. Such railways in India and Norway cost from \$12,000 to \$14,000 per mile, including engines, cars and all equipments necessary. Cost of work about the same per ton as on ordinary

CONSUMPTION.

ITS CURE AND ITS PREVENTIVE BY DR. J. H. SCHENCK, M. D.

THE CAUSE AND CURE OF COX-SUMPTION.—The primary cause of Consump-tion is derangement of the digestive organs. This derangement produces deficient mutrition and assimilation. By assimilation, I mean that process by which the nutriment of the food is converted into blood, and thence into the solids of the body Persons with direction thus impaired, having the slightest predisposition to pulmonary disease, or if they take cold, will be very liable to have Consumption of the Lungs in some of its forms; and I hold that it will be impossible to cure any case of Consumption without first restoring a good of Consumption without here restoring a good digestion and healthy assimilation. The very first thing to be done is to cleaned the stomach and bowels from all diseased mucus and slime which are clogging these organs so that they cannot per-form their functions, and then rouse up and restore the liver to a healthy action. For this purpose, the surest and best remedy is Schenck's Mandrake Pills. These Pills clean the stomach is causing disease and decay in the whole system. They will clear out the liver of all diseased bile that has accumulated there, and arouse it up to a new and healthy action, by which natural and

healthy bile is secreted. . The stomach, bowels, and liver are thus cleansed by the use of Schenck's Mandrake Pills; but there remains in the stomach an excess of scid, the organ is torpid and the appetite poor. In the bow els, the lacteals are weak, and requiring strength and support. It is in a condition like this that Schenck's Seawed Tonic proves to be the most valuable romedy ever discovered. It is alkaline, and its use will neutralize all excess of acid, making the stomach sweet and fresh; it will give permanent tone to this important organ, and cre-ste a good, hearty appetite, and prepare the syssee a good, nearly appette, and prepare the sys-tem for the first process of a good digestion, and ultimately make good, healthy, living blood. Af-ter this preparatory treatment, what remains to cure most cases of Consumption is the free and persevering use of Schenck's Pulmonic Syrup. The Pulmonic Syrup nourishes the system, puri-des the blood, and is readily absorbed into the circulation, and thence distributed to the diseased lungs. There it ripons all morbid matters, whether in the form of abscesses or tubercles, and ther assists Nature to expel all the diseased ma assists Nature to exper air the diseased matter in the form of free expectoration, when once it ri-pens. It is then, by the great healing and purify-ing properties of Schenck's Pulmonic Syrup, that all nicers and cavities are healed up sound,

the form of free expectoration, when once it ripens. It is then, by the great healing and purifying properties of Schenek's Pulmonic Syrup, that all ulcers and cavities are healed up sound, and my patient is carred.

The essential thing to be done in curing Consumption is to get up a good appetite and a good digestion, so that the body will grow in fissh and get strong. If a person has diseased lungs, a cavity or abscess there, the cavity cannot heal, the matter cannot ripen, so long as the system is below par. What is necessary to care its a new order of things, a good appetite, a good nutrition, the body to grow in fiesh and get fat; then Nature is helped, the cavities will heal, the matter will ripen and be thrown off in large quantities, and the person regain health and strength. This is the true and only plan to care Consumption, and if a person is very bad, if the lungs are not entirely destroyed, or even if one lung is entirely gone, if there is cough vitality left in the other to heal up, there is hope.

I have seen many persons cared, with only one sound lung, live and enjoy life to a good old ge. This is what Schenek's Medicines will do to care Consumption. They will clean out the stomach, sweeten and strengthen it, get up a good digestion, and give Natura the assistance she needs to clear the system of all the disease that is in the lungs, whatever the form may be.

It is important that, while using Schenck's Medicines, care should be exercised nat to take cold: keep in-doors in cool and damp weather; avoid night-air, and take cut-doa's exercise only in a genial and warm sensities.

I wish it distinctly understood that when I recommend a patient to be exercised not to take rold: keep in-doors in cool and damp weather; avoid night-air, and take cut-doa's reservise only in a genial and warm sensities.

I wish it distinctly understood that when I recommend any activative to be carefully increased to take not perfectly bealed, just so long as the lungs are not perfectly bealed, just so long is there immi

THU ALBINL.

PROSPECTUS FOR 1872,

FIFTH YEAR. A Representative and Champion of Ameri-

can Art. THE ALDINE: An Illustrated Monthly Journal claimed t

be the handsomest Paper in the World.

World.

ALIVE who are striving to make their profession worthy of admiration for beauty, as it has lways been for usefulness,"—Henry Ward Beecher

iways been for usefulness." Henry Ward Beecher

THE ALDINE, while issued with all the regularity, has none of the temporary or timely unterest characteristic of ordinary periodicals. It is an olegant miscellancy of pure, light, and gracetol literature, and a collection of pictures, the rarcat specimens of artistic skill, in black and white. Although each succeeding number affords a fresh pleasure to literacted, the real value and beauty of THE ALDINE will be most appreciated after it has been bound at the close of the year While other publications may claim superior cheapness as compared with rivals of a similar class. THE ALDINE is a iniquo ald original conception—alone and unapproached—absointely without competition in price or character. The possessor of the volume just completed cannot duplicate the quantity of flas paper and engravings in any other shape or number of volumes for ten times its cost.

The labor of getting THE ALDINE ready on the press is so great that reprinting is out of the quastion, With the exception of a small number aspecially reserved for hinding, the edition of lift, is already expansited, and it is now a scare as well at valuable book.

NEW FEATURES FOR 1872.

NEW FEATURES FOR 1872. NEW PEATURES FOR 1872.

The enthusiastic support so reachly accorded to their enterprise, wherever it has been introduced, has rominced the publishers of THE ALDINE of the soundness of their theory that the American public would recognize and heartist support any smoore effort to elevate the tone and standard of illustrated publications. That so many weakly wicked sheets exist and thrive is not evidence that there is no market for anything better-indeed the success of THE ALDINE from the start is direct proof of the contrary. With a population so wast, and of such varied taste, a publisher can choose his patrons, and his paper is rather indicative of his own than of the taste of the country. As a guarantee of the excellence of

publisher can choose his patrons, and his paper is rather indicative of his own than of the taste of the country. As a guarantee of the excellence of the country. As a guarantee of the excellence of this denormer, the publishers would beg te announce during the country year, specimens from the following a mineral American attists:

W. T. Richards, Granville Perrins,
W. Hart, F. O. C. Darkey,
W. Hart, F. O. C. Darkey,
W. Hart, V. W. M. Wilcox,
Aug. With, James H. Rears,
James Smiley R. E. Piouer,
Frank Perrin, J. How.

These pictures are being reproduced without regard to expense by the very best engravers in the country, and will hear the severest critical comparison with the best lorging ward, is being the determination of the put lishers that The ALDINE shall be a successful vindication of American taste in competition with any existing publication in the world.

Literary Department.

Where so much attention is paid to illustration and get up of the work, too much dependence on appearances may very hantrally be feared. To anticipate such misgrays, it is only necertary to state, that the editorial management of THE ALDINE has been entrusted to Ma. RICHARD HENRY STODDARD, who has received assurances of assistance from a host of the most popular writers and poets of the country.

The Volume for 1572
